

General Water Usage Estimate

rev 6.2.23

DATE:

TO: Spokane County Public Works - Wastewater System Division

FROM:

SUBJECT: Water Usage For

Address:

1. The **current** average monthly non-irrigation water usage for the subject property is:

_____ cubic feet. **Leave blank if not applicable*

****Work with your water service provider to obtain this information. It may be necessary to use winter-time meter data in order to isolate domestic consumption from irrigation consumption.*

2. The **estimated** monthly non-irrigation water usage for the subject property is:

_____ cubic feet.

****Include new usage estimate for vacant properties or additional usage estimate for already connected properties.*

3. The **total** estimated monthly non-irrigation water usage for the subject property is:

_____ cubic feet. **Sum of items 1 & 2*

Notes:

1. Sewer connection charges will be based upon this estimate
2. The number of Equivalent Residential Units (ERUs) initially assigned to the property will be based upon an allowance of 800 cubic feet per month per ERU.
3. If the actual future non-irrigation water usage exceeds the estimate presented above, additional sewer connection charges will become due.
4. The monthly sewer service fees for the property will be determined based upon the sewer service fee rates in effect, which are subject to change over time.
5. The County will periodically review the water usage for the property to make appropriate billing adjustments.
6. For specific information on rates and applicable sewer connection charges, please call 509-477-3604.
